WakeUpCall (WFM2017)

Date/venue(2): Monday May 8th - Friday May 12th, 2017, 1) Analistas Financieros Internacionales, Marqués de Villamejor, 5, and 2) Ciudad Financiera Banco de Santander, Av. de Cantabria - 28660 Boadilla del Monte, Madrid

Wakeup Call is a Marie-Curie Center initiative, funded jointly by the European Industrial Doctorates (EID) and the Horizon 2020 research framework.

EU project WAKEUPCALL is a European Industrial Doctorates (EID) project, funded in the Horizon2020 framework.

It is a Marie-Curie initiative in which six Early Stage Researchers (ESRs, like PhDs) will work closely with industrial partners on a PhD Thesis in applied mathematics. In this EID proposal we will thus combine efforts among academic and industrial beneficiaries in three countries, Spain, Italy and the Netherlands. Driven by the academic beneficiaries, from the Departments of Mathematics of the University A Coruña (Spain), the University of Bologna (Italy), the Delft University of Technology (the Netherlands), and CWI - the research center for mathematics and computer science, Amsterdam (the Netherlands), we wish to perform advanced research and educate Early Stage Researchers in close collaboration with our industrial partners in the field of modern risk management. The industrial partners that joined this EID are the bank Banco Santander (Spain), the insurance company UnipolSai (Italy), the financial and insurance consultants EY - Ernst&Young - (Netherlands) and Analistas Financieros Internacionales (Afi, Spain). We team up with engineering risk analysts NIER (Italy) plus the software company VORtech (Netherlands) with expertise in numerical algorithms and parallel computing.
